Subject: Stop Rubber Stamping FPL Requests!

Dear Commissioner

Florida Power & Light is asking for the largest single rate hike in Florida history at a time when consumers are facing an increased cost of goods and services as we recover from the economic downturn caused by COVID-19. Increasing the cost of electricity is something you, the Public Service Commission, can control.

It is unconscionable to think that we should have to pay more for our electric service at a time like this. Rubber stamping an all-time high return on equity of 11.5 percent goes against helping struggling Floridians. Putting people over profits should come first.

Now is not the time to give FPL what it wants; let's keep the public in Public Service Commission!

We have a 1100 sq ft one bedroom condo and in the summer months my bill goes over \$200.00 month ~ my next bill is currently projected to be just under 200.00 ~ We can not

afford this let alone more as retired , fixed income Floridians ~ we keep our air at 76 degrees
~ but my husband has medical equipment that runs 24/7 and the electric bill is always high
never under 120.00 year round we cn not afford such a hike in electricity!!!!

Thank you,

Karen ODonnell
