Subject: Stop Rubber Stamping FPL Requests!

Dear Commissioner

Pleased to meet you. It is requested not to raise fpl rate ever specially beings covid-19 virus is unemployment Florida residents. Th iui a seems price gauging. Fpl rate is already 7 cents pr wattz way to much it seems. Lower the bill rates to 3 cents pr wattz now please in stead? Loyal to both FPL and Public Service Commission.

Be sure to reference Docket No. 20210015-EI

Older Floridians are already paying record high prescription drug and housing costs, tacking on a higher power bill will only add stress to their pocketbooks. Help us stand up to FPL and raise your voice today! We cannot do it without you.

Thank you for reading.

Jeff Johnson
AARP Florida State
Florida Power & Light is asking for the largest single rate hike in Florida history at a time when consumers are facing an increased cost of goods and services as we recover from the economic downturn caused by COVID-19. Increasing the cost of electricity is something you, the Public Service Commission, can control.

It is unconscionable to think that we should have to pay more for our electric service at a time like this. Rubber stamping an all-time high return on equity of 11.5 percent goes against helping struggling Floridians. Putting people over profits should come first.

Now is not the time to approve this price gauging request? Please override it by lowering the rates to 3 cents pr wattz immediately?

Thank you for your time and cooperation,
Annett Strahan

Thank you,

Annett Strahan
