Subject: Stop Rubber Stamping FPL Requests!

Dear Commissioner

Florida Power & Light is asking for the largest single rate hike in Florida history at a time when consumers are facing an increased cost of goods and services as we recover from the economic downturn caused by COVID-19. Increasing the cost of electricity is something you, the Public Service Commission, can control.

It is unconscionable to think that we should have to pay more for our electric service at a time like this. Rubber stamping an all-time high return on equity of 11.5 percent goes against helping struggling Floridians. Putting people over profits should come first.

Now is not the time to give FPL what it wants; let's keep the public in Public Service Commission!

July 12, I will be 97 years old, A World War II, veteran in the Pacific. I was a Senior in High School when the Japanese Bombed Pearl Harbor. I was drafted and spent nearly 3 years in

the service. I was discharged in March 1946, found a job earning \$42 a week.

I retired in July 1989 and am a widower since 2008, living on Social Security and a small pension (in 1989 \$) I don't need an FPL increase to cut into my grocery money.

Thank You for your consideration.
