Subject: Stop Rubber Stamping FPL Requests!

Dear Commissioner

Florida Power & Light is asking for the largest single rate hike in Florida history at a time when consumers are facing an increased cost of goods and services as we recover from the economic downturn caused by COVID-19. Increasing the cost of electricity is something you, the Public Service Commission, can control.

It is unconscionable to think that we should have to pay more for our electric service at a time like this. Rubber stamping an all-time high return on equity of 11.5 percent goes against helping struggling Floridians. Putting people over profits should come first.

Now is not the time to give FPL what it wants; let's keep the public in Public Service Commission!

We already have to pay for the new building that they built in Live Oak. It should be paid off by now but they are still charging us. I cannot work at this time due to medical issues and they may keep me from working at all. I know they told me it will take one more year to see

if it works. I do not have much money and my savings for retirement is gone.

Thank you,

JANET VALENTI
