**Subject:** Stop Endorsing FPL Requests for record profits and income !

Dear Commissioner

Florida Power & Light asks NOW for the largest single rate hike in Florida history when consumers are facing an increased cost of goods and services from the economic downturn caused by COVID-19. Consumer feel they have no control . Stopping this increase in the cost of electricity is something you, the Public Service Commission, can control. Help the consumer and not this monopoly with stock holders benefitting from hurting your voters. .

It is unconscionable that we consumers should pay more for our electric service at a time like this. FPL advertises they are lowering their cost ach year. What other lies do they tell? Rubber stamping an all-time high return on equity of 11.5 -15 percent goes against helping struggling Floridians. No industry should be guaranteed returns on euity above national averages. The Commission should put people over profits. Floridians should come first.

Now is not the time to give FPL what it wants. Let FPL keep its demands down and allow the public to have a true Public Service Commission! FPL as monopoly does not deserve rcord profits on the backs of Floridians

Thank you,

MaryEli Roth
