Subject: Docket # 20210015-EI

Dear Commissioners,

My Name is Russell Rogers, my address is 3186 Clewiston St Deltona FL, 32786.

I am writing you today in opposition of the proposed rate increase by Florida Power and Light. Currently our power bills are at a point where we as middle class families are struggling to pay where the current rate is. In this time of uncertainty, everything from food to fuel is skyrocketing, we are struggling to put food on our tables as it is. I am sure without a doubt that FPL can find other ways in thier current budget or rate allocation to pay for improvements and so on. I lived in New Orleans before and after Hurricane Katrina, where the state Commission allowed rate hike after rate hike to take place user the notice of the something that FPL is asking for with the possibility of the these hikes being rolled back, well they never were and that was in 2005, 2006 and 2007. Here it is 2021 and my family is still paying for so called infrastructure improvements. It's a false notion in my opinion to pay the executives their high wages while we the little people suffer. Please understand that we are struggling, and covid19 is not helping.

Thankyou for your time,

Russell Rogers
