**Subject:** Stop Rubber Stamping FPL Requests!

Dear Commissioner

Florida Power & Light is asking for the largest single rate hike in Florida history at a time when consumers are facing an increased cost of goods and services as we recover from the economic downturn caused by COVID-19. Increasing the cost of electricity is something you, the Public Service Commission, can control.

It is unconscionable to think that we should have to pay more for our electric service at a time like this. Rubber stamping an all-time high return on equity of 11.5 percent goes against helping struggling Floridians. Putting people over profits should come first.

Now is not the time to give FPL what it wants; let's keep the public in Public Service Commission!

I have moved to a new home. The constant power failures and flickering is going to damage the Electronics of all my new appliances. Instead of taking the responsibility, FPL wants to

sell a appliance insurance. That means that I have to pay for the FPL non reliable source. Every time I report a power surge to FPL, the answer is that there are repairs. The problem with that is FPL lack of communication to Alert me of the power loss in case of line or equipment failure.

This month June2021 I got a new charge on my bill--It is called " Customer Charge" for \$8.34. I totally disagree. It amounts \$1000 s in FPL pocket every month.

It is an abuse of FPL. Specially when using Gods given SUN to source Power. It would be reasonable to say more Sun Sourced Power equal more benefits for consumers. But it is all opposite.

I would like to Ask you.. PSC...members to act with a reasonable and Just authority to Stop FPL Charges abuse, and unethicality business practices. Please, do not allow FPL to buy you Out.

Thank you,  
Bolivar Cabrera  
9029 E Crow Cir  
Labelle, FL. 33935

Thank you,

Hector Cabrera
