Subject: FPL Rate Increase

As a consumer, I am outraged that FPL wants to increase its profitability and shareholder value on the backs of those who, like me, pay substantial monthly bills. Stop using fossil fuels, allow other solar companies to compete (which FPL has managed, through its lobbying efforts in the legislature, to completely squelch) and let consumers benefit. Bragging that our bills are among the lowest in the country isn't saying much when you consider the horrors perpetrated in others states, with Texas as a prime example.

Deny this rate increase, and give consumers a break!
