Subject: FPL

STOP the building of gas power plants in the Panhandle and build more wind turbines! I have had enough of rising rates for dirty fossil fuels.

A 20 percent utility increase over the next four years is ridiculous unless

you want to put power lines underground or invest in wind or solar energy. You will be getting plenty of money from the constant influx of people to Florida. PLAN FOR FUTURE GENERATIONS WITH YOUR PROFITS. Help the future of FL.

Roni Meyer-Force
