Subject: Proposed rate increases for FPL

As an 81 year old customer of FPL for almost two decades, and on a fixed income, I want to go on record in strong opposition to the proposed increase in electric bills by nearly 20% over the next four years. FPL has a monopoly in the marketplace
Your responsibility is to us, the taxpayers, not FPL and its parent company NextEra, which is one of the Nation's largest and most profitable energy companies. Your agency is the only one that regulates what they can charge.

Please reject Florida Power & Light's proposed increase in our electricity bills!
