We DO NOT agree that a rate increase should be granted to Tampa Electric!

Because of COVID, we are still in an emergency situation. A 19% increase is unjustified and would be a hardship on those of who have not had a 19% increase in our income.

Perhaps the bonuses paid to the CEO and other officials, if any, should be DECREASED to make up any shortfall. You need to look to other means to make up any shortfall instead of "passing it on to the consumer" The consumer can withstand only so much of this "cost passing"!
