Dear Public Service Commission,

As a resident voter in Florida and a customer of FPL, retired on a fixed income, I urge you to decline FPL's rate increase petition. FPL needs to rethink the plan, distribute benefits more equitably to homeowner customers like me, and focus on building out a climate-conscious program for next year, next decade, and next generation. FPL does not need to spend billions of our dollars to build redundant fossil fuel units, rebuild an already-sufficient transmission system, and give their shareholders a raise.

Please do not put FPL's desire to maximize profits over our need to power our homes affordably.

Thank you!

Sincerely,
Roger Leege
