Andrew,

Prior to the decision this morning at the Docket Meeting to place the correspondence received since Friday into the Undocketed file, 33 pieces of correspondence were filed in Docket 20210015-EI. I have reviewed the 33 pieces of correspondence and identified only 1 that referenced Docket No. 20210015-EI. The remaining 32 do not list a docket number or reference a specific matter currently before the Commission.

We would like to move these 32 pieces of correspondence from Docket No 20210015-EI to Docket No. 20210000-OT. Can you please reply to this email with confirmation that the following documents should be moved to the Undocketed file because they do not list a docket number or name a specific matter before the Commission:

Document Nos. 10096-2021 – 10118-2021 and 10120-2021 – 10128-2021.

Thank you.

- Adam
