Dear Commissioner

I'm a retired senior who is absolutely frustrated with entities of essential services such as yourselves sticking your hands in my pockets and yanking more money out of my meager reserve. Docket #20210015-EI does not adequately address the monetary constraints of seniors who overwhelmingly pay a significant portion of their retirement funds (that they have legitimately earned over their years) to service providers such as yourself. You need to do much better for Florida senior citizens!

In addition, there is significant room your electric service. Just last night we had a power interruption for no obvious cause that forced resetting of clocks, reboot of our computer, and other reset of electronic devices, including oxygen generation. And last evening was not the only occasion there was interruption of service. If service were improved the rate increases your entity is proposing may be a little more palatable.

I'm certain you've all heard it many times before, but it is absolutely true for most of us, Seniors Live on Fixed Income! I respectfully demand that you reconsider the rates your entity is proposing in Docket #20210015-EI that it fully addresses that we Seniors Live on Fixed Income!

Thank you,

Ronald Fournier
