Subject: Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

Throughout the pandemic, things have been tough enough for the working man and those on fixed incomes. Do you want to be responsible for piling it on. Reduce FPL's rate increase to a more manageable figure of 3-4%. Also, what had FPL been doing all of these years when it comes to "target hardening"? Will their hardening efforts guarantee no blackouts and prevent loss of power during an EMP? If they can do both of these, then consider a one time increase. If not, then send them packing.

Thank you,

Stephen Seefchak
