Dear Commissioner

(Please share your thoughts here.)Florida has over 60% seniors. Many are lower income, have medical issues that are costly and they're unable to find gainful employment if any at all, and the last year necessities such as food, household items and medicine have almost doubled. Many families are having the same problems. Due to extreme weather air conditioning is needed, Covid has many eating at home so refrigeration is important. There no longer is any extra money.

Thank you,

Susan Canada
