Commissioner Gabriella Passidomo,

WHY THE BLATENT GREED?

IT IS CLEAR THAT YOUR TOP PRIORITY IS PROFIT AND PEOPLE BE DAMNED!

I am writing as a concerned Florida resident and customer of Florida Power & Light (FPL). I received notification that FPL intends to increase rates for customers like me. I am urging you to rethink this decision and not increase our bills.

This past year has been extremely challenging financially for many people in the state of Florida. A rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to find work.

I urge you to reconsider this rate increase.

ADVANCED ENERGY ECONOMY

Presents:

Carpe Diem: Can the U.S. Seize the Day in EV Manufacturing?

Thursday, September 30 | 12 p.m. ET / 9 a.m. PT

Register for the Webinar

A growing appetite for electric vehicles (EVs) among U.S. consumers and fleet operators is driving a dramatic transformation of the nation's automotive industry. Legacy automakers are overhauling their facilities and supply chains to meet soaring demand, while startups bring new EV production capabilities to states like California, Nevada, and Arizona.

All this growth means boundless opportunities for new companies, new workers, and new locales to tap into the lucrative EV boom. What policies are needed to ensure the transition to EVs is smooth — and profitable — for businesses and the workforce? **Join us Thursday, September 30** to hear from **Congressman A. Donald McEachin, U.S. House of Representatives (VA-04)** as well as industry and labor experts about the prospects for U.S. dominance in the EV market.

Learn more and save your seat for the webinar.

Advanced Energy Economy, 1010 Vermont Ave. NW, Suite 1050, Washington, DC 20005, (202) 380-1950
