Folks,

Per our discussion this morning attached is a memo stating that Gulf Power can avoid the site in question because we were unable to obtain the entire easement we needed to access the project corridor.

Brian looked into the wetland issue and said: Avoiding/not including this area will have no impact on wetlands or associated impacts.

Thanks again for jumping on the call this morning!

Best, Rich

Now that it appears that we have all the necessary approvals for the 3 supplemental CRAS reports, we would like to meet and discuss the next actions needed to obtain final approval for construction to begin on the parcels subject to the CRAS.
