Item 4B

VOTE SHEET

December 7, 2021

FILED 12/7/2021  
DOCUMENT NO. 12967-2021  
FPSC - COMMISSION CLERK

Docket No. 20210001-EI – Fuel and purchased power cost recovery clause with generating performance incentive factor.

**Issue 1C:** Has DEF made appropriate adjustments, if any are needed, to account for replacement power costs associated with the January 2021 to April 2021 Crystal River Unit No. 4 outage? If appropriate adjustments are needed and have not been made, what adjustments should be performed?

**Recommendation:** No. Failure of the plant operator to follow written procedures, without supervisory approval, directly led to the outage at Crystal River Unit 4. ~~As such, replacement power costs should not be borne by retail ratepayers. DEF should credit its customers \$14.4 million associated with retail replacement power costs for the Crystal River Unit No. 4 outage through its 2021 Final True-Up filing.~~

**APPROVED** as **MODIFIED**

Allocation of responsibility shall be split, authorizing 50% of the replacement power costs to be recoverable.
