**Subject:** RE: Docket #20200226-SU

This email is to voice my opposition against EU's private sewer proposal. My husband and I just recently moved to Don Pedro Island and have attempted to find info on the qualifications of this company to partake in such a project, as well as the impact it will have on our Island and the financial costs to be imposed on homeowners. At this time we cannot get any accurate information regarding these concerns and therefore feel more studies and technical expertise need to be done before considering a permit for this project, which could have a devastating financial impact on homeowners and our quaint community. Thank you for your time.

Sincerely,

Joanne Dillon
