Mr. David Ford  
david\_ford1991@yahoo.com

RE: FPSC Inquiry 1388329C

Dear Mr. Ford:

The Governor's office forwarded a copy of your email regarding Florida Power & Light Company (FPL) to the Florida Public Service Commission (FPSC). The FPSC regulates investor-owned electric, and natural gas utilities throughout the state, and investor-owned water and wastewater utilities in those counties which have opted to transfer jurisdiction to the FPSC. The FPSC has authority in the telephone industry which is limited to the Lifeline Assistance Program, Florida Relay Service, and pay telephone service. We appreciate the opportunity to respond directly to you.

When a utility company files an application for a rate increase with the FPSC, it must explain the need for the requested increase. Its petition must be accompanied by minimum filing requirements (MFRs), which are schedules and reports containing the operation, financial, economic, and rate information needed by the FPSC staff to evaluate the company's revenue increase request, rate structure, and quality of service. The company's proposal and financial information are closely analyzed before a Commission decision is made.

The utility also forecasts how much money is needed to cover its expenses in the next year. This includes a proposed return on its investment in assets used to provide service to its customers (such as power plants, electric lines, or gas mains), which the utility uses to pay interest on money it borrows and to compensate investors. The utility must also propose the classes of customers that will pay for the increase, usually categorized as residential, commercial, and industrial.

The utility application, the technical hearing and service hearing testimony and exhibits become part of the case record that Commissioners use to make decisions about the case.

FPSC staff makes a detailed review and analysis of the entire record and files a recommendation with the FPSC's Clerk detailing the staff's adjustments to the company's petition.

The Commissioners review the information, based on the record, and make their decisions about the case in an open meeting through a written "order."

After the FPSC's order is issued, any party may ask the Commission to reconsider its decision on the issues. After the reconsideration, the Public Counsel, the utility, or any other party involved in the proceeding may appeal the Commission's decision to the Florida Supreme Court.

On October 26, 2021 the FPSC approved a four-year rate settlement for FPL, reflecting an almost 40 percent reduction in its original rate revenue request for 2022. Parties to the settlement, filed on August 9, 2021, include the Office of Public

Counsel, representing customers, the Florida Retail Federation; the Florida Industrial Power Users Group; and the Southern Alliance for Clean Energy.

As part of the evaluation process for FPL's rate request, the FPSC conducted 12 virtual service hearings in June and July to allow feedback from FPL and Gulf customers about utility service and the rate-setting process.

The settlement agreement reduces FPL's original revenue petition from \$1.1 billion to \$692 million in 2022 and from \$605 million to \$560 million in 2023. The utility's proposed return on equity midpoint was reduced from 11.5 to 10.6 percent.

You may review all the information filed for Commission consideration in docket 20210015 by accessing the FPSC website at [www.floridapsc.com](http://www.floridapsc.com). Under the Clerk's Office tab at the top of the page, click on Dockets. Type in the docket number 20210015. Click the Search button. Then select Document Filings Index for a list of all filings in the docket. This procedure allows you to view all of the information filed by the utility and other parties in the docket.

We will add your feedback to Docket No. 20210015, regarding FPL's petition.

If you have any questions, please contact Ms. Ellen Plendl at 1-800-342-3552 or by fax at 1-800-511-0809.

Sincerely,

Shonna McCray  
Regulatory Program Administrator  
Florida Public Service Commission

Mr. Dexter Beasley  
mailto: beasley.dexter@gmail.com

Dear Mr. Beasley:

Thank you for your reply. I want to provide you with further information about Florida Power & Light's rate increase.

When a utility company files an application for a rate increase with the Florida Public Service Commission (FPSC), it must explain the need for the requested increase. Its petition must be accompanied by minimum filing requirements (MFRs), which are schedules and reports containing the operation, financial, economic, and rate information needed by the FPSC staff to evaluate the company's revenue increase request, rate structure, and quality of service. The company's proposal and financial information are closely analyzed before a Commission decision is made.

The utility also forecasts how much money is needed to cover its expenses in the next year. This includes a proposed return on its investment in assets used to provide service to its customers (such as power plants, electric lines, or gas mains), which the utility uses to pay interest on money it borrows and to compensate investors. The utility must also propose the classes of customers that will pay for the increase, usually categorized as residential, commercial, and industrial.

The utility application, the technical hearing and service hearing testimony and exhibits become part of the case record that Commissioners use to make decisions about the case.

FPSC staff makes a detailed review and analysis of the entire record and files a recommendation with the FPSC's Clerk detailing the staff's adjustments to the company's petition.

The Commissioners review the information, based on the record, and make their decisions about the case in an open meeting through a written "order."

After the FPSC's order is issued, any party may ask the Commission to reconsider its decision on the issues. After the reconsideration, the Public Counsel, the utility, or any other party involved in the proceeding may appeal the Commission's decision to the Florida Supreme Court.

On October 26, 2021 the FPSC approved a four-year rate settlement for FPL, reflecting an almost 40 percent reduction in its original rate revenue request for 2022. Parties to the settlement, filed on August 9, 2021, include the Office of Public Counsel, representing customers, the Florida Retail Federation; the Florida Industrial Power Users Group; and the Southern Alliance for Clean Energy.

RE: FPSC Inquiry 1388316C

Dear Ms. Soule:

The Governor's office forwarded a copy of your email regarding Florida Power & Light Company (FPL) to the Florida Public Service Commission (FPSC). The FPSC regulates investor-owned electric, and natural gas utilities throughout the state, and investor-owned water and wastewater utilities in those counties which have opted to transfer jurisdiction to the FPSC. The FPSC has authority in the telephone industry which is limited to the Lifeline Assistance Program, Florida Relay Service, and pay telephone service. We appreciate the opportunity to respond directly to you.

When a utility company files an application for a rate increase with the FPSC, it must explain the need for the requested increase. Its petition must be accompanied by minimum filing requirements (MFRs), which are schedules and reports containing the operation, financial, economic, and rate information needed by the FPSC staff to evaluate the company's revenue increase request, rate structure, and quality of service. The company's proposal and financial information are closely analyzed before a Commission decision is made.

The utility also forecasts how much money is needed to cover its expenses in the next year. This includes a proposed return on its investment in assets used to provide service to its customers (such as power plants, electric lines, or gas mains), which the utility uses to pay interest on money it borrows and to compensate investors. The utility must also propose the classes of customers that will pay for the increase, usually categorized as residential, commercial, and industrial.

The utility application, the technical hearing and service hearing testimony and exhibits become part of the case record that Commissioners use to make decisions about the case.

FPSC staff makes a detailed review and analysis of the entire record and files a recommendation with the FPSC's Clerk detailing the staff's adjustments to the company's petition.

The Commissioners review the information, based on the record, and make their decisions about the case in an open meeting through a written "order."

After the FPSC's order is issued, any party may ask the Commission to reconsider its decision on the issues. After the reconsideration, the Public Counsel, the utility, or any other party involved in the proceeding may appeal the Commission's decision to the Florida Supreme Court.

On October 26, 2021 the FPSC approved a four-year rate settlement for FPL, reflecting an almost 40 percent reduction in its original rate revenue request for 2022. Parties to the settlement, filed on August 9, 2021, include the Office of Public

Counsel, representing customers, the Florida Retail Federation; the Florida Industrial Power Users Group; and the Southern Alliance for Clean Energy.

As part of the evaluation process for FPL's rate request, the FPSC conducted 12 virtual service hearings in June and July to allow feedback from FPL and Gulf customers about utility service and the rate-setting process.

The settlement agreement reduces FPL's original revenue petition from \$1.1 billion to \$692 million in 2022 and from \$605 million to \$560 million in 2023. The utility's proposed return on equity midpoint was reduced from 11.5 to 10.6 percent.

You may review all the information filed for Commission consideration in docket 20210015 by accessing the FPSC website at [www.floridapsc.com](http://www.floridapsc.com). Under the Clerk's Office tab at the top of the page, click on Dockets. Type in the docket number 20210015. Click the Search button. Then select Document Filings Index for a list of all filings in the docket. This procedure allows you to view all of the information filed by the utility and other parties in the docket.

We will add your feedback to Docket No. 20210015, regarding FPL's petition.

If you have any questions, please contact Ms. Ellen Plendl at 1-800-342-3552 or by fax at 1-800-511-0809.

Sincerely,

Shonna McCray  
Regulatory Program Administrator  
Florida Public Service Commission

RE: FPSC Inquiry

Dear Mr. Beasley:

The Governor's office forwarded a copy of your email regarding Florida Power & Light Company (FPL) to the Florida Public Service Commission (FPSC). The FPSC regulates investor-owned electric, and natural gas utilities throughout the state, and investor-owned water and wastewater utilities in those counties which have opted to transfer jurisdiction to the FPSC. The FPSC has authority in the telephone industry which is limited to the Lifeline Assistance Program, Florida Relay Service, and pay telephone service. We appreciate the opportunity to assist you and your mother.

To assist you, please provide us with the following:

- \* Your mother's full name
- \* Your mother's service address
- \* Your mailing address
- \* Your mother's service telephone number
- \* Your daytime contact telephone number
- \* The name in which your mother's electric bill is addressed
- \* Your mother's account number

You may respond by return e-mail or by calling me at 1-800-342-3552. I will look forward to hearing from you.

Sincerely,

Ellen Plendl

All,

My mother who is a senior citizen recieved a \$469 power bill from Florida Light & Power with many others in the same boat. For the month of December, the bill was \$164. I am asking for a prompt response from both state and Federal on this issue.

Thank you,

Dear sir,

I am sending you this email on behalf of concerned citizens of Northwest Florida. Florida Power and Light are increasing energy bills by double, and almost triple. This is very disconcerting considering the economic crisis that families are going through at this time.

I'm asking, almost to the point of begging, for your office to investigate this matter. We have almost no other choice except for going to solar power which is as everyone knows a large expenditure in the beginning. There is also generator power which in turn uses a lot of fuel. I challenge you with respect can you please look into this matter for the citizens of Northwest Florida not to mention the citizens of the whole state of Florida that use or shall I say are forced to use Florida Power & Light.

Thank you,

**Subject:** FLP Price Gouging monopoly

Dear Mr. Desantis,

I have followed you closely during this pandemic and fighting back against the federal governments trying to instill fear and panic during this pandemic. I appreciate everything you do for us all but there is a another battle that we are all fighting and we need more help. FLP in just one month has raised thousands of its 'customers' bills by a minimum \$100. Escambia county residents are by no means a wealthy lot and it seems like the 'cost of energy' raises every year and most of us see little to no improvement in infrastructure nor efficiency. In fact we have been urged by FLP to "use less power". I understand that monopolies do not apply to utility providers but it would be wise to have competition. Or to just have a bill written preventing what's happening.

Please send help because we are drowning.

Thank you,  
David Ford

**Subject:** FPL

Dear Governor,

I have never wrote to any politician in my life time but I decided today I had to. My concern is with FPL and their rates. I myself have seen a huge increase in my light bill. It has doubled and even tripled. My bill during the summer was maybe \$240 at the highest and in December it was &300 and now in January it's estimated to be \$430 or higher. These is only two of us that live in the home and our habits are pretty much the same all the time. We don't use a lot of lights or wash a lot of clothes or have our ac set to some crazy degree and yet out bill is getting higher and higher. If the power company is truly private owned why do we have to pay for all their improvements as well as them getting government grants. My community is suffering because of the outrageous power bill. Please help

Thank you,  
Bruce Davis

**Subject:** Florida Power and Light

Because of the Florida Public Service Commission's approval of FPL rate increases for former Gulf Power customers, seniors like us are now receiving electric bills 50 to 100 percent higher than before. For an unelected commission to have the authority to do this to seniors is appalling. Now we pay high inflationary prices on everything and ridiculous electric bills on top of it. We realize it is a done deal, but feel an investigation into these excessive rate hikes, and the Commission's approval of them, is warranted. Seniors can only take so much.

Respectfully,

Allen and Barbara Shires
