Mrs. Brandi Buck
brandismith200@gmail.com

RE: FPSC Inquiry 1389148C

Dear Ms. Buck:

The Governor's office forwarded a copy of your email regarding Florida Power & Light Company (FPL) to the Florida Public Service Commission (FPSC). The FPSC regulates investor-owned electric, and natural gas utilities throughout the state, and investor-owned water and wastewater utilities in those counties which have opted to transfer jurisdiction to the FPSC. The FPSC has authority in the telephone industry which is limited to the Lifeline Assistance Program, Florida Relay Service, and pay telephone service. We appreciate the opportunity to respond directly to you.

When a utility company files an application for a rate increase with the FPSC, it must explain the need for the requested increase. Its petition must be accompanied by minimum filing requirements (MFRs), which are schedules and reports containing the operation, financial, economic, and rate information needed by the FPSC staff to evaluate the company's revenue increase request, rate structure, and quality of service. The company's proposal and financial information are closely analyzed before a Commission decision is made.

The utility also forecasts how much money is needed to cover its expenses in the next year. This includes a proposed return on its investment in assets used to provide service to its customers (such as power plants, electric lines, or gas mains), which the utility uses to pay interest on money it borrows and to compensate investors. The utility must also propose the classes of customers that will pay for the increase, usually categorized as residential, commercial, and industrial.

The utility application, the technical hearing and service hearing testimony and exhibits become part of the case record that Commissioners use to make decisions about the case.

FPSC staff makes a detailed review and analysis of the entire record and files a recommendation with the FPSC's Clerk detailing the staff's adjustments to the company's petition.

The Commissioners review the information, based on the record, and make their decisions about the case in an open meeting through a written "order."

After the FPSC's order is issued, any party may ask the Commission to reconsider its decision on the issues. After the reconsideration, the Public Counsel, the utility, or any other party involved in the proceeding may appeal the Commission's decision to the Florida Supreme Court.

On October 26, 2021 the FPSC approved a four-year rate settlement for FPL, reflecting an almost 40 percent reduction in its original rate revenue request for 2022. Parties to the settlement, filed on August 9, 2021, include the Office of Public Counsel, representing customers, the Florida Retail Federation; the Florida Industrial Power Users Group; and the Southern Alliance for Clean Energy.

As part of the evaluation process for FPL's rate request, the FPSC conducted 12 virtual service hearings in June and July to allow feedback from FPL and Gulf customers about utility service and the rate-setting process.

The settlement agreement reduces FPL's original revenue petition from \$1.1 billion to \$692 million in 2022 and from \$605 million to \$560 million in 2023. The utility's proposed return on equity midpoint was reduced from 11.5 to 10.6 percent.

You may review all the information filed for Commission consideration in docket 20210015 by accessing the FPSC website at <http://www.floridapsc.com>. Under the Clerk's Office tab at the top of the page, click on Dockets. Type in the docket number 20210015. Click the Search button. Then select Document Filings Index for a list of all filings in the docket. This procedure allows you to view all of the information filed by the utility and other parties in the docket.

We will add your feedback to Docket No. 20210015, regarding FPL's petition.

If you have any questions, please contact me at 1-800-342-3552 or by fax at 1-800-511-0809.

Sincerely,

Ellen Plendl

The Commissioners review the information, based on the record, and make their decisions about the case in an open meeting through a written "order."

After the FPSC's order is issued, any party may ask the Commission to reconsider its decision on the issues. After the reconsideration, the Public Counsel, the utility, or any other party involved in the proceeding may appeal the Commission's decision to the Florida Supreme Court.

On October 26, 2021 the FPSC approved a four-year rate settlement for FPL, reflecting an almost 40 percent reduction in its original rate revenue request for 2022. Parties to the settlement, filed on August 9, 2021, include the Office of Public Counsel, representing customers, the Florida Retail Federation; the Florida Industrial Power Users Group; and the Southern Alliance for Clean Energy.

As part of the evaluation process for FPL's rate request, the FPSC conducted 12 virtual service hearings in June and July to allow feedback from FPL and Gulf customers about utility service and the rate-setting process.

The settlement agreement reduces FPL's original revenue petition from \$1.1 billion to \$692 million in 2022 and from \$605 million to \$560 million in 2023. The utility's proposed return on equity midpoint was reduced from 11.5 to 10.6 percent.

You may review all the information filed for Commission consideration in docket 20210015 by accessing the FPSC website at <http://www.floridapsc.com>. Under the Clerk's Office tab at the top of the page, click on Dockets. Type in the docket number 20210015. Click the Search button. Then select Document Filings Index for a list of all filings in the docket. This procedure allows you to view all of the information filed by the utility and other parties in the docket.

We will add your feedback to Docket No. 20210015, regarding FPL's petition.

If you have any questions, please contact me at 1-800-342-3552 or by fax at 1-800-511-0809.

Subject: Consumer Inquiry - Florida Power & Light Company

Mr. J. Nelson Jones
nelson100@wowway.com

RE: FPSC Inquiry 1389133C

Dear Mr. Jones:

The Governor's office forwarded a copy of your email regarding Florida Power & Light Company (FPL) to the Florida Public Service Commission (FPSC). The FPSC regulates investor-owned electric, and natural gas utilities throughout the state, and investor-owned water and wastewater utilities in those counties which have opted to transfer jurisdiction to the FPSC. The FPSC has authority in the telephone industry which is limited to the Lifeline Assistance Program, Florida Relay Service, and pay telephone service. We appreciate the opportunity to respond directly to you.

When a utility company files an application for a rate increase with the FPSC, it must explain the need for the requested increase. Its petition must be accompanied by minimum filing requirements (MFRs), which are schedules and reports containing the operation, financial, economic, and rate information needed by the FPSC staff to evaluate the company's revenue increase request, rate structure, and quality of service. The company's proposal and financial information are closely analyzed before a Commission decision is made.

The utility also forecasts how much money is needed to cover its expenses in the next year. This includes a proposed return on its investment in assets used to provide service to its customers (such as power plants, electric lines, or gas mains), which the utility uses to pay interest on money it borrows and to compensate investors. The utility must also propose the classes of customers that will pay for the increase, usually categorized as residential, commercial, and industrial.

The utility application, the technical hearing and service hearing testimony and exhibits become part of the case record that Commissioners use to make decisions about the case.

FPSC staff makes a detailed review and analysis of the entire record and files a recommendation with the FPSC's Clerk detailing the staff's adjustments to the company's petition.

The Commissioners review the information, based on the record, and make their decisions about the case in an open meeting through a written "order."

After the FPSC's order is issued, any party may ask the Commission to reconsider its decision on the issues. After the reconsideration, the Public Counsel, the utility, or any other party involved in the proceeding may appeal the Commission's decision to the Florida Supreme Court.

On October 26, 2021 the FPSC approved a four-year rate settlement for FPL, reflecting an almost 40 percent reduction in its original rate revenue request for 2022. Parties to the settlement, filed on August 9, 2021, include the Office of Public Counsel, representing customers, the Florida Retail Federation; the Florida Industrial Power Users Group; and the Southern Alliance for Clean Energy.

As part of the evaluation process for FPL's rate request, the FPSC conducted 12 virtual service hearings in June and July to allow feedback from FPL and Gulf customers about utility service and the rate-setting process.

The settlement agreement reduces FPL's original revenue petition from \$1.1 billion to \$692 million in 2022 and from \$605 million to \$560 million in 2023. The utility's proposed return on equity midpoint was reduced from 11.5 to 10.6 percent.

You may review all the information filed for Commission consideration in docket 20210015 by accessing the FPSC website at <http://www.floridapsc.com>. Under the Clerk's Office tab at the top of the page, click on Dockets. Type in the docket number 20210015. Click the Search button. Then select Document Filings Index for a list of all filings in the docket. This procedure allows you to view all of the information filed by the utility and other parties in the docket.

We will add your feedback to Docket No. 20210015, regarding FPL's petition.

If you have any questions, please contact me at 1-800-342-3552 or by fax at 1-800-511-0809.

Last month was 125.000 this month 195 for 329 kilowatts more ? A Commission said ok to charging us more ? We can't afford it. My neighbors either who mentioned his bill. I can see 5% increase but this is ridiculous! Also, they made a new rule that after customer uses 1,000 kilowatts they can charge more ! It's usually the other way around,, the more you buy the less you pay. This just happened this month, first billing. PLEASE HELP US Chris Macaulay 720-272-7424

Subject: The increase cost of my electric bill

Dear Governor DeSantis, my name is Kevin Kunkle, I am a resident of Crestview located in Okaloosa county. We recently just had our electric company switch from Gulf Power to Florida power. Along with the new merger as come EXTREMELY higher electric bills in just a months different. FPL isn't taking into consideration of the new location from where they originally came from (Miami). Being that this is the only option for a electric company that's NOT solar which seems to be what the government is trying to push for but that's being bullied into something that we DO NOT WANT. I would like for you to please for the residents of crestivew AND all of Florida please look into the electric companies prices.

I'm sure you're already aware but I would still like to remind you that Monopolization is a federal crime under Section 2 of the Sherman Antitrust Act of 1890. With FPL our only company THATS A MONOPOLY.

Thank you Governor Desantis.

Also have you thought about running for persistent in 2024? #DeSantis2024

Subject: Escambia County FPL Price Gouging, Do I Vote for You now?

Dear Governor DeSantis,

I support you, now I have to weigh whether I will vote for you. I do not support the dramatic rate increases to my electric bill. This is insane. It doubled the first month from \$150 to \$300 and that's with lower usage, now we had the cold snap and it skyrocketed, and because I used a lot of energy that day keeping my home warm it put me in a higher energy bracket RAISING the COST MORE! So, I can expect a bill that is well over \$500 for January. So now I am lowering my heat to 64 degrees to cut costs and forced to live uncomfortably. But wait it gets better because I know this summer to cool my house it will put me in the poor house. Energy Competition, Not Monopoly! You don't know the uproar. I can't even defend you on this to neighbors. I have some neighbors there bills in the Escambia county area have past \$700 because they did not pay attention. It will not help your 2028 Presidential Election Chances at all. DO SOMETHING ABOUT IT! Because this is not right at all!

A strong supporter and past voter of you,

Robert Passero,
Cantonment, Florida
Escambia County

FPL needs to be investigated. Something is definitely not right . There are thousands of people in the panhandle area (that supports you) but they have received utility bills this month from FPL that are double the amounts they we usually pay . Possibly a glitch in their system. For example see below:

Bill Comparison

Hello Governor. I just wanted to see if there is anything you can do about our power rates. I live in a single wide trailer and have 2 kids. One is an infant. My bill is so much I'm scared to run my heater and it is Winter time.. i have never seen anything like this and they know that we need power so they are raising these ridiculous prices even higher. There has to be something that can be done. If you can't do it can you contact someone who can do something? Im a single mom and I don't have 400 to 600 to pay for a power bill. That's almost my rent 😊 I hope you can help and thanks to whoever reads this. Not sure if he reads these all .God bless you all and thanks for your time!

Governor,

Please look into the outrageous rate hikes in electric bills by FPL. My bill increased over \$70.00 and after reviewing the bill I noticed that I used LESS electric than the previous month (with colder temperatures currently) and still had an increase in my bill. Tell me how this can be? The projection for next bill is even higher and the usage remains lower.

Whatever behind the scenes deal is taking place is at the sacrifice of your supporters. I am a true DeSantis supporter and I am not understanding how this deal was approved by you.

I trust you will take my concern and the concern of all in NWFL seriously. If the rates continue to rise, I not sure how we can afford to keep the lights on.

Thank you,

Brooke Hicks

I'm very appalled that you do not answer channel three's news asking them for you to comment on the problem with FPL. You don't understand that people here in Pensacola can not afford for their power bills to jump twice the amount that it was when guff power was the previous owners. I thought that I was going to vote for you for the upcoming election but I have decided not to and I'm convincing my husband not to vote for you as well. You haven't commented on things that you should have commented and you have left the Florida floridians Unattended as that what your job was not supposed to be. We elected you to take care of us and you have let us down. You are no better than Biden I hope that you don't succeed in the upcoming election and I will make sure that I will help you not get re elected sincerely Darlene sistrunk

Greetings Governor,

I have been one of your most ardent supporters, but you have a growing political problem in NW Florida. The FPL rate hikes are hitting people hard. They are excessive. This is turning into a political gift for your opponents. If they turn voters away from you in this part of Florida, you will lose the next election. The PUC has put the screws to everyone in this part of Florida with another rate hike coming in March. There is already a demonstration being organized in Pensacola. FPL and you are the targets of this demonstration. My advice is get on top of this in a hurry. The anger is growing and the only way for people to express anger is with demonstrations and at the ballot box.

Best Regards,

J. Nelson Jones
