Hello,

I read a bay news 9 article that stated:

"Duke is among three major Florida power companies asking for additional funding to upgrade its system. Duke is asking for \$142.8 million in funding."

This makes me so mad because they made 3.8 BILLION in profits last year. They can afford their own upgrades from the money we're forced, because there's no competition, to pay them. Do not let tax money go to them. They have enough money!

RE: FPSC Inquiry 1395831C

Dear Ms. Peterson:

The Governor's office forwarded a copy of your email regarding Duke Energy Florida (DEF) to the Florida Public Service Commission (FPSC). The FPSC regulates investor-owned electric, and natural gas utilities throughout the state, and investor-owned water and wastewater utilities in those counties which have opted to transfer jurisdiction to the FPSC. The FPSC has authority in the telephone industry which is limited to the Lifeline Assistance Program, Florida Relay Service, and pay telephone service. We appreciate the opportunity to respond directly to you.

We will add your correspondence to Docket 20220010 regarding DEF's storm protection plan cost recovery clause. You may review the schedule of events and docket filings by using the following link:
