COMPLAINT INFORMATION

Complaint: Other Complaint against Florida Power & Light Company

Details:

FPL has advertised extensively for Floridians to install solar panels. Part of the solar promise was to reduce electric bills and allow customers to pay off the costs of panels by savings. Adding \$300 a year to our billing (plus tax) increases the payback time. I don't think you are encouraging more customers to help reduce global warming and help the planet. It is rather short sighted of you to cave immediately to FPL rather than listen to the consumers. FPL wants to eliminate carbon emissions by 2045 yet you reduced the opportunity for customers to help.
