Commissioner Andrew Fay,

I am writing as a concerned Florida resident and customer of Florida Power & Light (FPL). I received notification that FPL intends to increase rates for customers like me. I am urging you to rethink this decision and not increase our bills.

This past year has been extremely challenging financially for many people in the state of Florida. A rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to find work.

I urge you to reconsider this rate increase.

I urge you to reconsider this rate increase, and also for low income people who are struggling with the rent spikes and gas and etc that's coming our way it would be unfair for the American people just being honest to the best of me and you and our American people it's time for a change in this world to be living comfortable and not struggling to make ends meet and trying to catch up to the spike of electricity bills amen
