Hi Commissioner,

Thank you for the Email. If we add it in the Rate Increase I fear My concern won't be addressed. My concern would be with the calculation they are doing for net metering . Please have it addressed.

Thanks,
Pramodh

Dear Mr. Gadipudi:

Thank you for your emails, dated July 20, 2022, which Commissioner Passidomo has received and read. The Commission Clerk will place a copy of your email in Docket No. 20210015-EI, *Petition for rate increase by Florida Power & Light Company*. We appreciate you providing the Commission with your comments.

Sincerely,

Angelena McCoy

Executive Assistant to Commissioner Passidomo

Florida Public Service Commission

Subject: Re: FPL Net Metering Solar Bill Calculation

Below is my Bill for reference and I highlighted the part where it is subtracting it .

Thank you Again.

Hi Commissioners and PSC,

My Name is PramoDh Gadipudi and I live at 285 Holly Forest Dr, St. Augustine, FL 32092.

I installed Solar on my Rooftop in April thinking that I can save some money on electricity and also help the environment with Solar.

From June 1st FPL has increased the Minimum Bill to 25 Dollars instead of 9 Dollars even if we have the net metering, Not sure their Calculation is correct. They are charging us (Solar equipped customers) after deducting whatever we have generated and making it seem like we have not used anything from FPL.

FPL delivered me 454 kWh and I Delivered them 780 Kwh, that means I did use 454Kw from the FPL. They are not thinking of this as my Usage in that Minimum Charge .

They are first Subtracting it from Delivered Power first and Billing me 25 Dollars. This is Kind of One way and Discriminatory against Solar and Non-Solar Customers.

If they Consider my Usage in Minimum Bill First that is first 240KW and after if they Deduct what ever i have delivered, that make sense for me and Also FPL

FPL is kind of Calculating one way and Charging Solar Customers . Please take this in Consideration and Help us . We paid lots of money to Solar and Also paying to FPL Now.

In these tough times, you should help the Solar customers from these Monotony and blood sucking companies.
