Comments:

Florida power and light customers in Northwest Florida are already paying 33% more for electricity than we did last year. That doesn't include all of the fees and surcharges. The customers in Northwest Florida can not afford continueing rate increases. These rate increases are disproportionately affect people who are on a fixed income and working class families. I personally and the people that live in northwest Florida have supported Ron Deantas but if this disregard for

his constituents continues I will support another candidate. He has appointed you to this board. The citizens of Florida should be protected from outrageous rate increases.
