Thank you for your assistance.

I would ask that you also add to that letter the info about the utility companies themselves. It only talks about how it would hurt people, it does not talk about the huge profits that these companies have made for the past two years, or how the commission has already granted them large increases in the recent past. They do not deserve to be able to price gouge Floridians, or Americans period, but that is just what it is and if you let them, you are just as rotten to the core as they are.

Florida Public Service Commission Clerk,

Docket No. 20220001-EI

I am writing as a concerned Florida resident and a electricity customer. I received notification that FPL, Duke and Tampa Electric intend to increase rates for customers like me. I am urging you to rethink this decision and not increase our bills.

This past year has been extremely challenging financially for many people in the state of Florida. A rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

I urge you to reject these outrageous rate increases at this time.
