ISSUE 4: What are the total conservation cost recovery amounts to be collected during the period January 2024 through December 2024?

FPUC: FPUC seeks to recover \$919,031, over the period January 2024 through December 2024.

ISSUE 5: What are the conservation cost recovery factors for the period January 2024 through December 2024?

FPUC: The Company asks for approval of a consolidated levelized conservation cost recovery factor for this period of \$.00144 per KWH.

ISSUE 6: What should be the effective date of the new conservation cost recovery factors for billing purposes?

FPUC: The factor should be effective beginning with the specified conservation cost recovery cycle and thereafter for the period January 2024 through December 2024. Billing cycles may start before January 1, 2024 and the last cycle may be read after December 31, 2024, so that each customer is billed for twelve months regardless of when the adjustment factor became effective.

ISSUE 7: Should the Commission approve revised tariffs reflecting the energy conservation cost recovery amounts and energy conservation cost recovery factors determined to be appropriate in this proceeding?

FPUC: Yes. The Commission should approve revised tariffs reflecting the energy conservation cost recovery amounts and establishing energy conservation cost recovery factors determined to be appropriate in this proceeding. The Commission should direct staff to verify that the revised tariffs are consistent with the Commission's decision.

ISSUE 10: Should this docket be closed?

POSITION: Recognizing that this is an ongoing cost recovery docket, this docket should remain open with a new docket number assigned for the following year.

RESPECTFULLY SUBMITTED this 25th day of August, 2023.
