Subject: Pluris Wedgefield increase

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Good morning. I am a resident of Wedgefield under the “service” of Pluris Wedgefield. I got a threatening email from them yesterday again. They were very kindly informing me of the BCC meeting this month to discuss the possibility of the county buying and taking over the treatment plant here in the community. Along with that educational message was a notice that Pluris will be asking for rate increases for water and wastewater for the PSC at 46% and 108%. They routinely ask for rate increases but this is by far the highest. I vehemently request that these rate increases be denied. Pluris has a monopoly as the water provider here and should not be allowed to charge us like this! It is funny that it comes on the heels of the big settlement they just had to pay to residents for the unhealthy product they have been pumping into us for years!
Again - please do not approve this or ANY rate increase for Pluris.

Thanks,
Melissa Lasser
