I am adamantly opposed to allowing TECO to raise their rates by 10% in each of the next 3 years.

Vote no in the teco increase as it's already hard enough. They should not be allowed to keep gauging us to make more profit. Vote NO on the annual increase of 10%

I oppose the proposed TECO rate hikes of 10% per year for the next three years. Public records show record profits and bonuses for TECO top executives, and TECO has not presented any data showing a NEED for rate hikes only the desire to keep profits high and their allies happy. During times of high inflation for consumers and record profits for the utility, these proposed rate hikes are ridiculous.

Teco sent letters out in 2023 in acknowledgement of the high prices and increases. They profited off of COVID while this community suffered. They told us all they would lower rates in 2024, and now they are planning for more rate increases instead! This is absurd and should not be allowed. Enough is enough. Where is the oversight and those responsible for allowing this?

Hi, I'm a customer of TECO. I've recently read that they are planning a 10% rate increase each year for the following three years, all while building a brand new 400000+ sqft office building in the middle of midtown Tampa. They need to prove why it's necessary for them to require more money from their customers. From my perspective it's unreasonable for them to ask for this much. They just reduced rates by 10% (<https://www.tampaelectric.com/mediacenter/2023/Tampa-Electric-Will-Reduce-Bills-in-2024/#:~:text=Tampa%20Electric%20will%20significantly%20reduce,1.>), and are now immediately bringing them back up? It doesn't make much sense, unless their only goal is profit. Please consider denying their filing for rate increases.

I am seeing news that Tampa Electric Company TECO, will be raising their rates over the next 3 years. This is simply unacceptable and rate increases should not be happening so frequently. I hope that something is done at the state level to mitigate not only TECO but any other companies from increasing their rates.
