ORDER NO. PSC-2024-0125-PCO-EI ISSUED: April 23, 2024

ORDER GRANTING INTERVENTION OF FLORIDA INDUSTRIAL POWER USERS GROUP

On April 2, 2024, Tampa Electric Company ("TECO") filed a petition, minimum filing requirements, and testimony for an increase in base rates effective January 2025.

Petition for Intervention

Florida Industrial Power Users Group ("FIPUG") filed a Petition to Intervene on March 15, 2024. Petitioner represents that TECO does not object to its intervention. The Office of Public Counsel did not file any objection to FIPUG's intervention in this matter.

FIPUG states it is an ad hoc association consisting of industrial users of electricity which routinely appears on behalf of its members in cases concerning utility regulation. FIPUG alleges that it has a substantial number of members in TECO's service territory who will be substantially affected by rates set in this proceeding because electricity costs represent a significant portion of its members' production costs. Its members require adequate, reasonably priced electricity to compete effectively in their respective markets. FIPUG asserts that its participation in this matter is appropriate to ensure the rates charged to its affected members are fair, just, and reasonable.

Standard for Intervention

Pursuant to Rule 28-106.205, F.A.C., persons, other than the original parties to a pending proceeding, who have a substantial interest in the proceeding and who desire to become parties, may move for leave to intervene. Motions for leave to intervene must be filed at least twenty (20) days before the final hearing, must comply with Rule 28-106.204(3), F.A.C., and must include allegations sufficient to demonstrate that the intervenor is entitled to participate in the proceeding as a matter of constitutional or statutory right, pursuant to Florida Public Service Commission ("Commission") rule, or that the substantial interests of the intervenor are subject to

ORDER NO. PSC-2024-0125-PCO-EI DOCKET NO. 20240026-EI DOCKET NO. 20230139-EI DOCKET NO. 20230090-EI PAGE 2

determination or will be affected through the proceeding. Intervenors take the case as they find it.

The test for associational standing was established in Florida Home Builders Association v. Department of Labor and Employment Security¹ and Farmworker Rights Organization, Inc. v. Department of Health and Rehabilitative Services,² which is based on the basic standing principles established in Agrico Chemical Company v. Department of Environmental Regulation.³ Associational standing may be found where: (1) the association demonstrates that a substantial number of an association's members may be substantially affected by the Commission's decision in a docket; (2) the subject matter of the proceeding is within the association's general scope of interest and activity; and (3) the relief requested is of a type appropriate for the association to receive on behalf of its members.⁴

Analysis & Ruling

Based on a review of the materials provided by FIPUG, it appears that FIPUG meets the three-prong associational standing test established in *Florida Home Builders*. With respect to the first prong, FIPUG demonstrates that a substantial number of its members will be substantially affected by the Commission's determination in this rate proceeding. Electricity costs represent a significant portion of its members' production costs and they face the prospect of paying higher electricity base rates going forward. With respect to the second prong, the subject matter of this proceeding appears to be within FIPUG's general scope of interest and activity. FIPUG routinely appears on behalf of its members in cases concerning utility regulation to advocate for adequate, reasonably priced electricity. With respect to the third prong, the relief being requested by FIPUG appears to be of a type appropriate for this association to obtain on behalf of its members. FIPUG seeks to intervene in this docket to represent the interests of its members in seeking fair, just, and reasonable rates. Therefore, FIPUG meets the requirements for associational standing and will be permitted to intervene as a party in this proceeding.

³ Agrico Chem. Co. v. Dep't of Envtl. Regulation, 406 So. 2d 478, 481–82 (Fla. 2d DCA 1981). Under Agrico, the individual intervenor must show that (1) they will suffer injury in fact which is of sufficient immediacy to entitle them to a Section 120.57, Florida Statutes ("F.S."), hearing, and (2) this substantial injury is of a type or nature which the proceeding is designed to protect. The first aspect of the test deals with the degree of injury. The second deals with the nature of the injury. Id. at 482. The "injury in fact" must be both real and immediate and not speculative or conjectural. Int'l Jai-Alai Players Ass'n v. Fla.
