CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

My name is Madison, I worked in the Transportation and Logistics industry.

Although I myself do not live in an area that FPL services. The company I work for supports several businesses and warehouses in areas serviced by FPL, and we've consistently experienced reliable service. Being in the transportation industry it is imperative to maintain service 24/7. Outages are rare, and when they do happen, FPL addresses them promptly and efficiently.

No one wants to see an increase in their utility costs; however, it's important to recognize FPL's commitment to delivering reliable service and clear communication as these changes take effect.
