I am asking that you do not approve a rate increase for FPL. With the cost of living so much higher than when we moved here over 30 years ago, it is getting unbelievably difficult to make ends meet. FPL should be making much more money from the increased population and the raise that they received 2 years ago. All those solar panel fields were supposed to help keep costs down, also. With the high cost of housing, food, fuel clothing and utilities, it's no wonder people are leaving the state for more affordable living. How can Alabama keep their rates so low? Must be better or more conservative management. I ask that you vote to keep the rates as they are and for FPL to try to lower rates in the future. Wouldn't that be a nice change?
