To the Honorable Patt Maney ;

Good Afternoon,

I am reaching out because I'm deeply concerned about FP&L's proposed rate increase. I participated in the "virtual" PSC meeting which was supposed to address the FPL rate increase. However, it was clearly padded for a pro FPL rate

increase. I knew it was going to be biased when the PSC commissioner prefaced the meeting by asking speakers/customers to discuss FPL reliability and service, which has nothing to do with the proposed rate hike increase. It was obvious to me that the PSC doesn't care about the residents of Florida and is prepared to rubber stamp yet another rate increase. Where are the officials that should be standing up for their constituents? There is no legitimate or financial reason for another rate increase increase. What do you plan to do to help your constituents, who can't afford another rate hike, fight this proposal? Thank you.
