Dear Commission Clerk,  
This comment is in reference to Docket No. 20250011-EI.

Good morning,  
My name is Nicole Plunkett. I'm a business owner and homeowner in Palm Beach County, and I've lived in Florida my entire life. As Co-President of Cotleur & Hearing, a landscape architecture and planning firm based in Jupiter, I work with a team of 45 professionals who rely on FPL every day. We manage fast-paced projects with tight public deadlines. Even a brief power outage can disrupt our workflow and affect our clients. At home, I've also seen how much FPL has improved over the years. I remember storms like Frances and Jeanne, when we were without power for more than a week. Today, power is often restored quickly, or not lost at all, thanks to FPL's continued investment in infrastructure. That kind of reliability matters. Palm Beach County is growing rapidly, and we need a strong, resilient energy system to keep pace.

I believe this proposed adjustment is a necessary step to maintain the reliable service we've come to depend on. Thank you for your time and for the opportunity to share my perspective.
