CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

It's not enough to say I'm against this rate increase. As we all know the consumer is not going to be heard & the increases will get thru like the normal rubber stamp thru your agency. Big businesses get what they want & the hell with the customer. Don't even know why u put on this show when it's usually well know that the provider gets almost everything they ask for.
