Message
Gov. DeSantis / staff:

10s of thousands of acres of Florida land is being dedicated to CHINESE solar panel farms with CHINESE inverters and related equipment.
Energy expert Dave Walsh reports that not only is Solar an intermittent and undependable source of energy, but it is 4-6 times more expensive.
Unlike increased insurance and property tax rates, Utility planning & rates are well within the sphere of executive authority.
Please fix it. Thanks, Kurt Kalfs
