Good Morning

We will be placing your comments below in consumer correspondence in Docket No. 20250011, and forwarding them to the Office of Consumer Assistance and Outreach.

Thank you,
Nick Holmes
Commission Deputy Clerk II
Office of Commission Clerk
Florida Public Service Commission

Subject: RE: FPL's Rate Hike

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

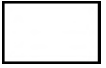

To whom this may concern,

I am writing to request a vote of NO for the increase that Florida Power & Light is requesting. I live in Okaloosa county and FPL took over Gulf Power and our rates went up unfairly from the rest of the state. There was a promise that our rates would lower back down in 2025 which hasn't happened, in fact, they have gone up since you have allowed them to increase their rates. People are struggling to pay their electric bills and their tier system is ridiculous. I never struggled to pay my electric bill under Gulf Power and their discount times were convenient, FPL offers none of that. This is the 3rd rate hike they've asked for since 2021 and I, along with everyone else who is suffering with these rates, are asking you to deny this rate increase. Why should we line the pockets of those who are making millions a year? Why can't they cut back on unnecessary spending such as commercials? It's not like we have a choice of electric companies. How much do all those commercials cost?

Please ask yourselves if this is the time for another increase when we were promised a decrease we never saw. People should not be struggling to pay high bills and our representatives overlooking these utility companies should not be shaking their heads yes every time FPL wants something.

Thank you for your consideration,

Charlotte
