Subject: Keep FPL Rates Down Docket #20250011

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer over 45 years and a retired government social service employee of over 30 years who is single with only social security & state retirement to live on & no savings because I had to work a second job also and sometimes a third to support my only daughter and give her a college education which she also paid for beginning work at 13 yrs of age we lived right above the poverty level and I was a state employee! I can barely pay mortgage car insurance mortgage property taxes and my Medicare insurance premium recently I canceled my home insurance because I couldn't afford the \$1300 for the year and I literally sit in dark at night using tv with the lowest amount of channels because it's so high and I kept my electric so low I can't even run my dishwasher & keep house at 78 & above so ac doesn't run as much there's no more that I can cut to live and now they want to raise the base amount for electric! I worked so hard helping others & taking a low salary never dreaming cost of living would be increasing so dramatically please do not raise the

rates

Thank you for your time and consideration.

Sincerely,

Patricia Thomas
