Subject: Support of FPL

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

As the CEO of the Business Development Board of Palm Beach County, I want to express our strong support for Florida Power & Light and the critical role they play in driving economic growth in our region.

Our efforts to diversify the economy — through targeted industries such as aviation, aerospace, manufacturing, logistics, distribution, and fintech — depend heavily on the availability of reliable, affordable, and responsive utility services. FPL has been an outstanding partner in meeting the needs of both new and expanding companies. Their commitment to innovation, reliability, and fair rates makes Palm Beach County an attractive destination for corporate investment and job creation.

It is essential that FPL continues to operate at the highest level, as their service directly impacts our ability to attract and retain industries that fuel long-term economic prosperity. We also need to make sure that our utility infrastructure is updated and properly maintained. We are grateful for their partnership and fully support their plans for future growth and continued excellence.

Sincerely,

Kelly Smallridge
President and CEO
