

Dear PSC

6/19/25

Ref: Docket # 20250029-GU

I'm writing about the excessive rate increase being requested. The increase in customer charge is 38.7% and base rate of 31.7%, for RS-1 rate class. I'm sure I speak for all retirees such as myself that this is totally excessive. Even when the increases are divided by the 3 years since the last increase the numbers are about 13% & over 10%. Much higher than the inflation rate I receive in my S.S. yearly increase. Please consider a much lower increase of possibly 4% per year.

Sincerely,

Patrick Dougherty
