Dear Sir or Madam:

I'm at a loss for words that FPL would even consider such an outrageous, shocking rate increase.

I am one of so many senior citizens living on a fixed income provided by my social security check each month. My HOA assessments and monthly fees have gone up dramatically, my co-payments for my medical bills too. That in addition to everything else leaves me cutting back on my personal items like food and everyday needs.

I don't understand what FPL's justification for this exorbitant rate hike was made. The previous rate hike has already placed a considerable burden on customers, with some reports indicating a 60% increase in bills over the last five years. Estimates on FPL's suggested increase of at least \$200. annually by 2027 and possibly even higher is outrageous!

How about the alternative investment in clean energy and energy efficient programs to reduce bills and promote a more sustainable future!

We need to have our voices heard! I'm requesting in-district hearing to allow all FPL customers, even in rural areas, to have their voice heard.

Respectfully submitted,

Leah Weisburd- Lauderhill Resident
