Dear PSC Board,

I am shocked to learn that Florida Power and Light has requested a huge increase in rates. In fact the largest rate increase in US history.

I don't think this large an increase is justified or necessary to keep FPL profitable and allow a substantial return to investors. I urge you to disallow this huge increase that will put heavy burdens on FPL customers.

I am a retiree and this increase of \$200 per year will be a great burden to me. I ask to to reject the huge increase and authorize a lower increase.

To whom it may concern,

I would like to speak on the proposed rate increase and FP&L service.

As a Volusia County native and resident for nearly 60 years, I have utilized Florida Power & Light service both at my residence and workplace. Through the years, my FP&L service has been consistent and reliable.

When storms hit, be it an afternoon storm or category 3 hurricane, the crews are quick to get to work resolving any service issues.

Technology has changed over the years and so has the tools I have been offered with my FP&L service. I utilize the FPL app to log and track any outages. I find this new technology very convenient and helpful.

I understand to keep up with technology and our ever growing communities, we must be willing to invest in these services.

I personally believe a few extra dollars a month would go a long way in keeping our lines maintained and well prepped for storms, help provide safety and training tools for the linemen and help ensure services are restored as quickly as possible when needed.

Thank you for your time,

Susan Klippel

**Subject:** DOCKET #20250011 - KEEP THE RATES DOWN

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners:

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on myself and my family, especially as we are old with a low income, though still working.

With costs for housing, healthcare, and everyday essentials already high and now the Tarriffs that will add more burden on people, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

Moreover for over 6 weeks now, FPL is broadcasting long commercials for instance on WINK-TV and on the Naples FM Radio 101.1. These funds should better be used to keep the rates down.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Dear Florida Public Service Commissioners:

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on myself and my family, especially as we are over 64 years old with a low income (less than \$50,000/year), though still working.

With costs for housing, healthcare, and everyday essentials already high and now the Tariffs that will add more financial burden on people, the last thing I need is a higher electric utility bill.

e

FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

**Moreover for over 6 weeks now, WINK-TV and Naples radio 101.1 are broadcasting long FPL ads. These commercials are very costly, and the cost is beared by FPL Customers. These funds should better be used to keep the rates down.**

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.
