

Reference Docket No. 20250029-GU

To Whom it May Concern:

The proposed rate changes for Rate Class RS-1 I believe to be excessive at a 39% increase for the Customer Charge and the Base Rate increase of 32%. As a retired household living on a relatively fixed income, I believe that increases of this magnitude to our utilities are beyond reasonable.

Please, consider a much smaller increase if an increase is warrantable.

Sincerely,

Norbert Abraham, Jr.
