Dear Florida Public Service Commission,

FPL does not need another rate increase approval in the Panhandle of Florida. Our electric bill doubled from Gulf Power service to FPL service. As health care professionals in a two income household with our children grown we were able to manage this. Our patients, especially the families with children and the elderly, could not and this has caused hardship to many. FPL claimed that while Gulf Power provided perfectly fine service per our experience that Gulf Power had not invested in infrastructure. Now they just want a greater rate of return on their profits. The Panhandle is not FPL's cash cow that they can keep milking. Please keep public service at the front of your policy making and reject this increase with a strong message to FPL to stop this nonsense.

thank you,
Maria Rowan
Pensacola, Florida
