Comments:

Docket #20250011. As a 40 year customer of FPL, I can testify to the extraordinary progress they have made since Hurricane Andrew. They have gone to great lengths to harden their system against future weather related outages. As a businessman concerned with job creation in South Miami-Dade County, the future planning they have undertaken makes it easy for the EDC to convince any potential business relocations of a reliable energy

source into the future. The achievements they have made in solar energy, and Clean Water Recovery are extraordinary. We consider FPL a reliable partner, both from a residential and commercial perspective.
