Subject: FPL increase rate

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Good Afternoon,

I am in favor of supporting the FPL rate increase. I have witnessed first-hand the good work FPL has done to deliver inexpensive electricity and energy to South Florida. Being in the restaurant business, I am grateful for how quickly FPL works to restore power to our communities after major storms impact our region. I have friends and affiliates in other states where their electrical companies take significantly longer to get power back to businesses after weather events.

Thank you.

To whom it may concern,

I would like to share my experience with FPL's service in South Florida. As someone in the restaurant industry, I've seen how efficiently FPL restores power to our communities following major storms. This quick response is crucial to our operations, especially when compared to the extended outages experienced by some of my peers in other states.

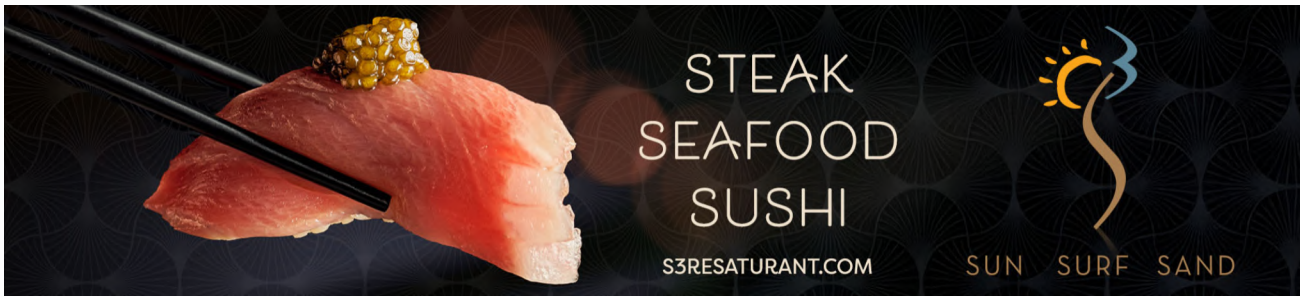

FPL's efforts to provide reliable and affordable electricity have made a meaningful difference for many businesses like mine. I appreciate the opportunity to share this perspective.

Thank you for your consideration.

To whom it may concern,
I support the proposed rate increase by FPL. Over the years, I've seen the positive impact FPL has made in delivering reliable and affordable energy to South Florida.

As a restaurant manager, I especially value how quickly FPL responds after major storms. Their prompt service helps our community—and businesses like mine—get back on our feet quickly. I know others in different states who wait much longer for power restoration, which creates serious challenges for their operations and recovery efforts.

Thank you for your time and consideration.

Subject: Support for FPL Rate Adjustment Proposal

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

To whom it may concern,

I'm writing in support of the proposed FPL rate increase. As someone in the restaurant industry, I've seen firsthand the reliable and affordable service FPL provides to our community. After major storms, their crews are out quickly working to restore power—a critical factor in helping local businesses like mine recover and reopen.

I have colleagues in other states who experience long delays getting power back after severe weather, which causes serious disruptions to their operations. We're fortunate here in South Florida to have a utility that responds efficiently and keeps energy costs reasonable.

Thank you for your time and consideration.

Best regards,

Indy Wright

Subject: FPL Rate Increase

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

To whom it may concern,

I am writing in support of the proposed FPL rate increase. As someone actively involved in the restaurant industry, I have seen firsthand the reliable and efficient service FPL provides in delivering affordable energy to South Florida.

I especially appreciate FPL's swift response in restoring power after major storms. In a region frequently affected by severe weather, their speed and efficiency play a crucial role in helping businesses like mine recover and resume operations quickly. I have colleagues in other states who experience much longer delays from their utility providers, often resulting in extended closures and significant financial impact.

Thank you for your time and consideration.

Warm Regards
