COMPLAINT INFORMATION

Complaint: Other Complaints against Tampa Electric Company

Details:

TECO does a good job during hurricanes, but my complaint is with the rise in prices linked to giving hurricane service, etc. They've raised their prices already telling us it was to improve hurricane service. Soon, we won't be able to afford electricity. Less CEO profit and more service at affordable prices, and not using a natural disaster to justify raised prices. Are the inmates running the Florida Insurance Bureau? We know they run the State House and Gov. Office but really....raised electric when the US President has gone crazy spending money and depriving people of relief? Lets use some creative thinking not just "toss it on the people" mentality.
