Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing anyone needs is a higher electric utility bill. Also with climate change Florida residents are already experiencing higher bills with hotter temperatures. It should be noted that FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely and totally unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable. Be brave and stand up for the little guy.

Please stand up for all Floridians and say NO to this inappropriate and unfair rate hike.

Thank you for your time and consideration.

Sincerely,

Pam Phillips
